GELSER BROTHERS - DALTON, NEW YORK

SIZE OF GLADIOLUS BULBS. We offer Gladiolus bulbs in three sizes.

LARGE size, $1\frac{1}{4}$ to 2 inches in diameter. The best blooming size. We recommend this size for immediate results.

MEDIUM size $\frac{3}{4}$ to $1\frac{1}{4}$ inches in diameter. This size will give good bloom, but a little later than the large size.

SMALL size, $\frac{3}{8}$ to $\frac{3}{4}$ inches. These will make good blooming bulbs for another season, though some will bloom the first year, if planted early.

OUR GUARANTEE. We guarantee our stock to be true to name, clean, vigorous and healthy, free from thrips and disease. Should any error occur in labeling or otherwise and any stock shipped eventually prove untrue, we will replace with true stock and you may keep the stock first sent.

TERMS. Full remittance should accompany all orders. However, we will ship C. O. D. on request, when 25 per cent of the amount of the order is paid in advance.

TRANSPORTATION. We pay all delivery charges unless quoted otherwise.

DISCOUNTS. We allow the following cash discounts, when payment is made in full before shipment except on bulbs at wholesale prices.

10 per cent on orders of \$5 to \$25.

15 per cent on orders of \$25 to \$50.

20 per cent on orders of \$50 or more.

SUBSTITUTIONS. No substitutions will be made unless your order so requests.
